A. O. P. NICHOLSON, JR. 3m Fever, or Chills and Fever, whether of short or long standing. He refers to the entire Southern and Western country to bear him testimony to the truth of the assertion, that in no case whatever will it fail to cure if the directions are strictly followed and carried out. In a great many cases a single dose has been sufficient for a cure, and whole families have been cured by a single bottle, with a perfect restoration of the general health. It is, however, prudent, and in every case more certain to cure, if its use is continued in smaller doses for a week or two after the disease has been checked, more especially in difficult and long standing cases. Usually this medicine will not require any aid to keep the bowels in good order. Should the patient, however, require a cuthartic medicine, after laving taken three or four doses of the tonic, a single dose of Bull's Vegetable Partiry Pills will be sufficient.
